Dear Mark -

This was the happiest last semester of school I've ever had. And you're the reason. I loved every minute I spent with you (& still do), especially going to the prom, senior nite at Six Flags, & all the other neat things we did. We had our problems, but things worked out. They always will. We'll go on & on & have fun, but this year will always be special to me. I hope it will be for you, too. I'm sure it will. I can see us in 20 years looking back on this with good memories. They will be good memories. Summer was also fun - the 4<sup>th</sup> of July, your birthday, our 16<sup>th</sup> month anniversary.

and all sorts of neat stuff. The rest  
of our lives together is going to be  
fun. The separations, however temporary,  
we will endure during the next  
school year, will do nothing but  
make our love stronger. Nothing is  
as bad as it seems. We'll appreciate  
the time we have together more. Good  
luck! Make me proud of you. You  
have been so challenged. I love you,  
Little Markus!

Growing intellectually, physically and emotionally, will help us accept changes that the future holds. Activities and involvement through fellowship is an ideal way to enjoy a learning institution. Through accomplish-

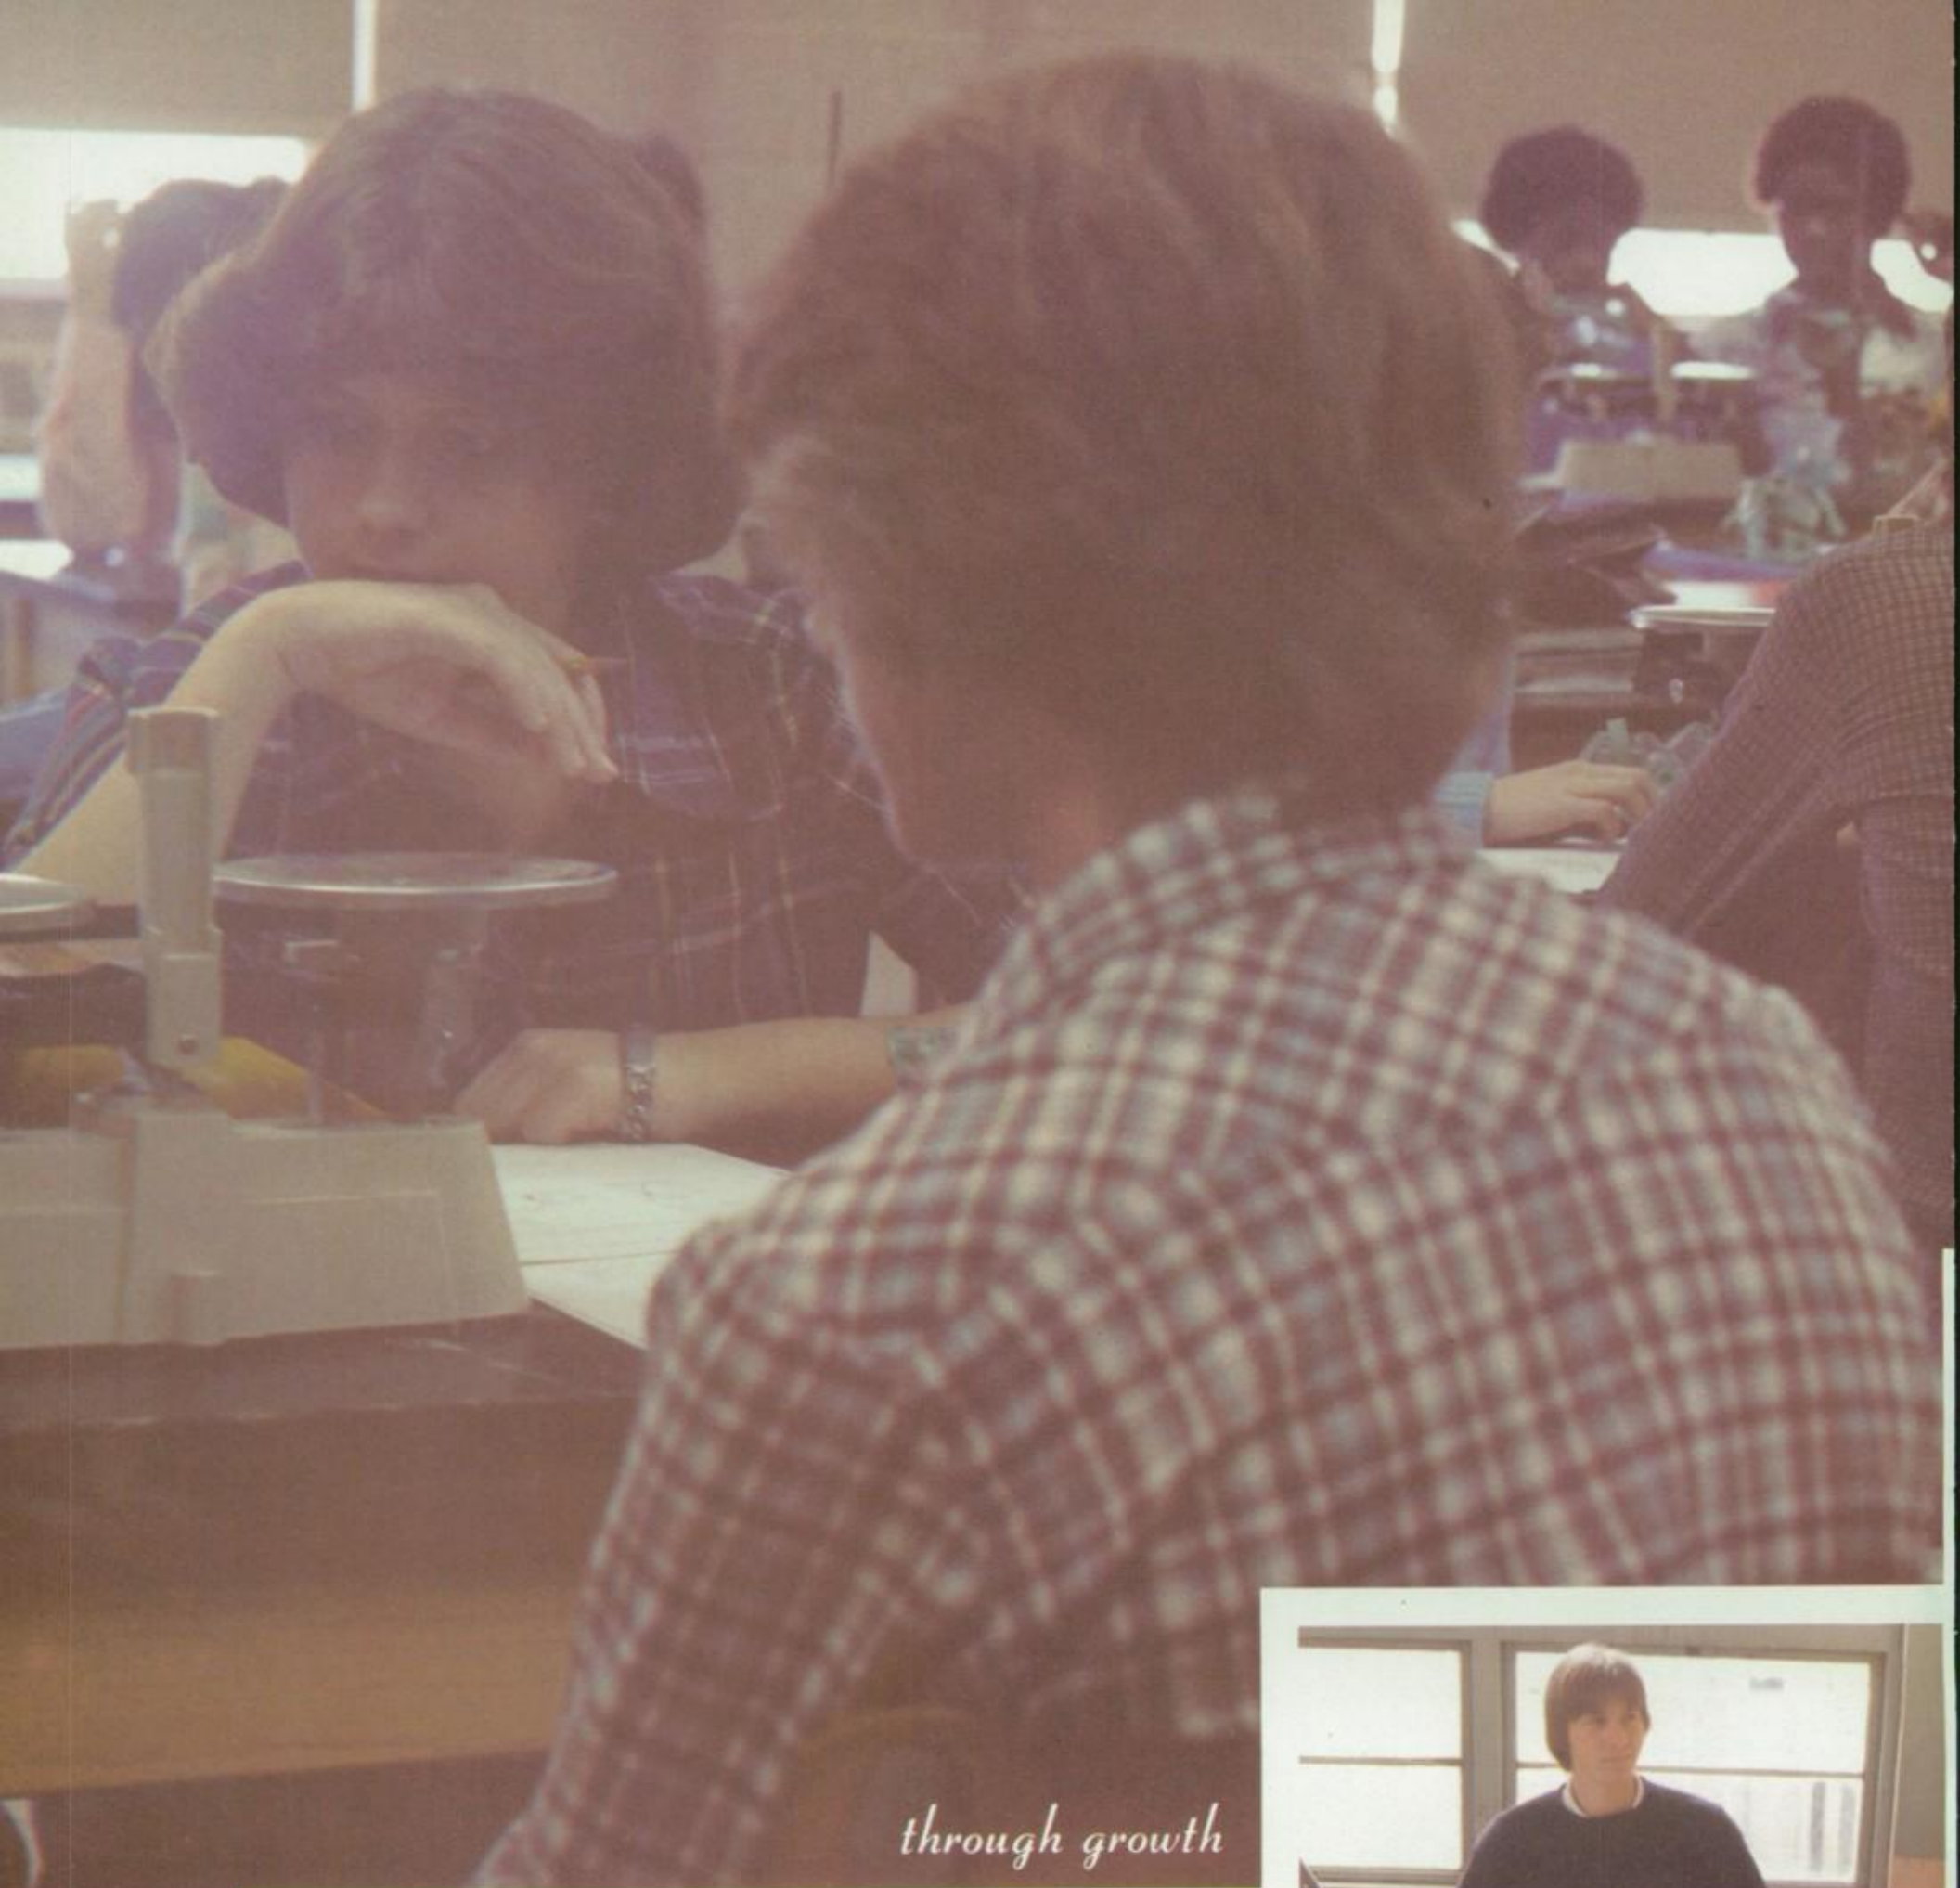

ments we will gain knowledge of many subjects, and fulfill the basic principle of education. Through disappointments one can learn from his or her mistakes, and strive to correct them. Through the usual routine we gain an idea of planning for a full day whether it be school or work. We all have a routine to follow; let's work to make that routine enjoyable and easier to follow as we progress through life.

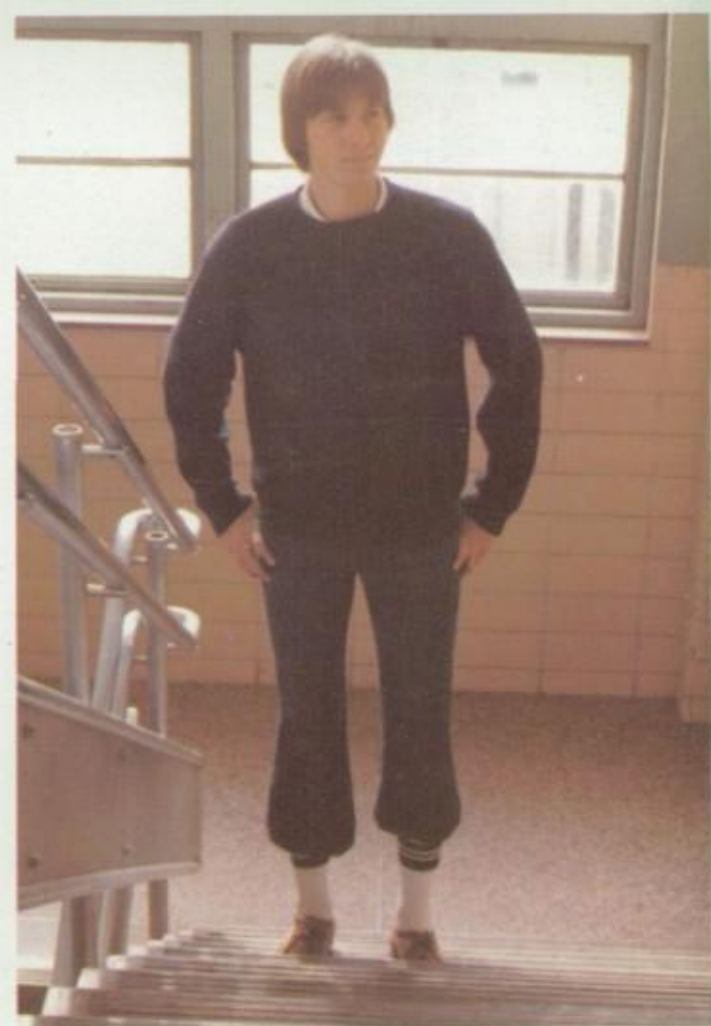

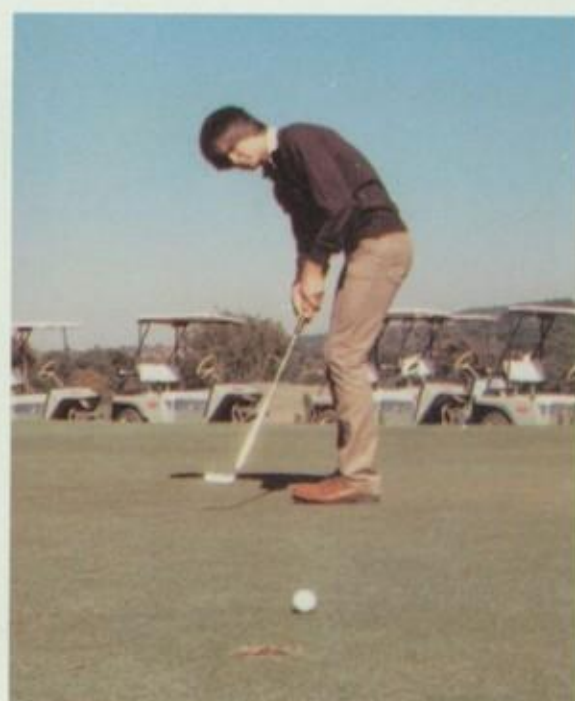

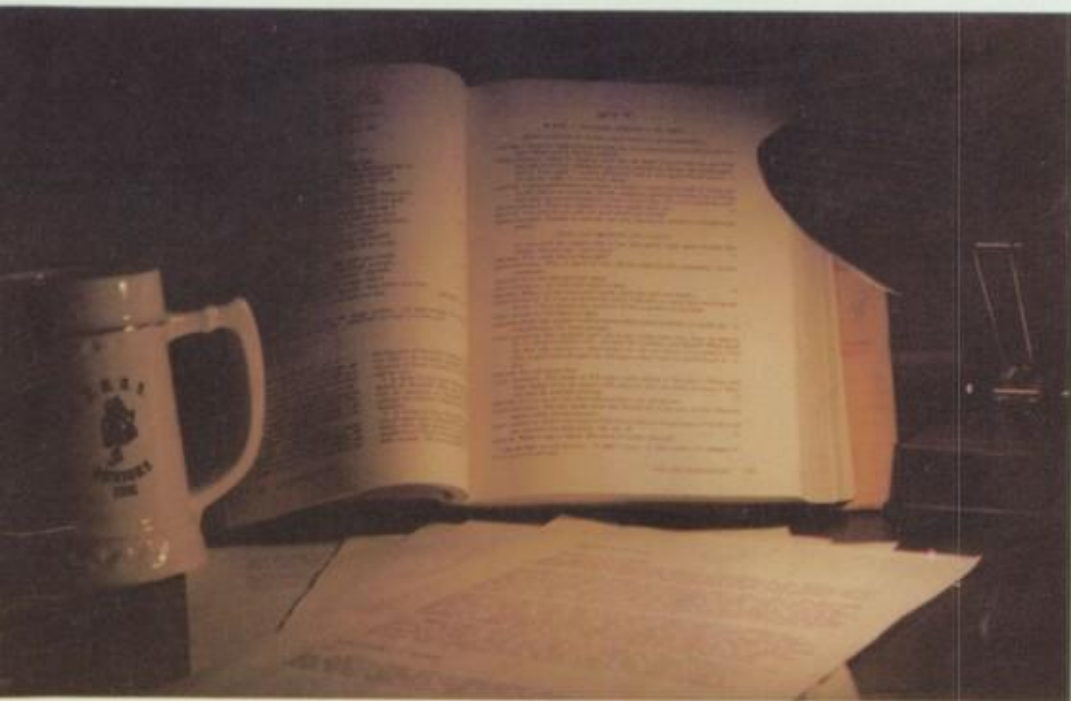

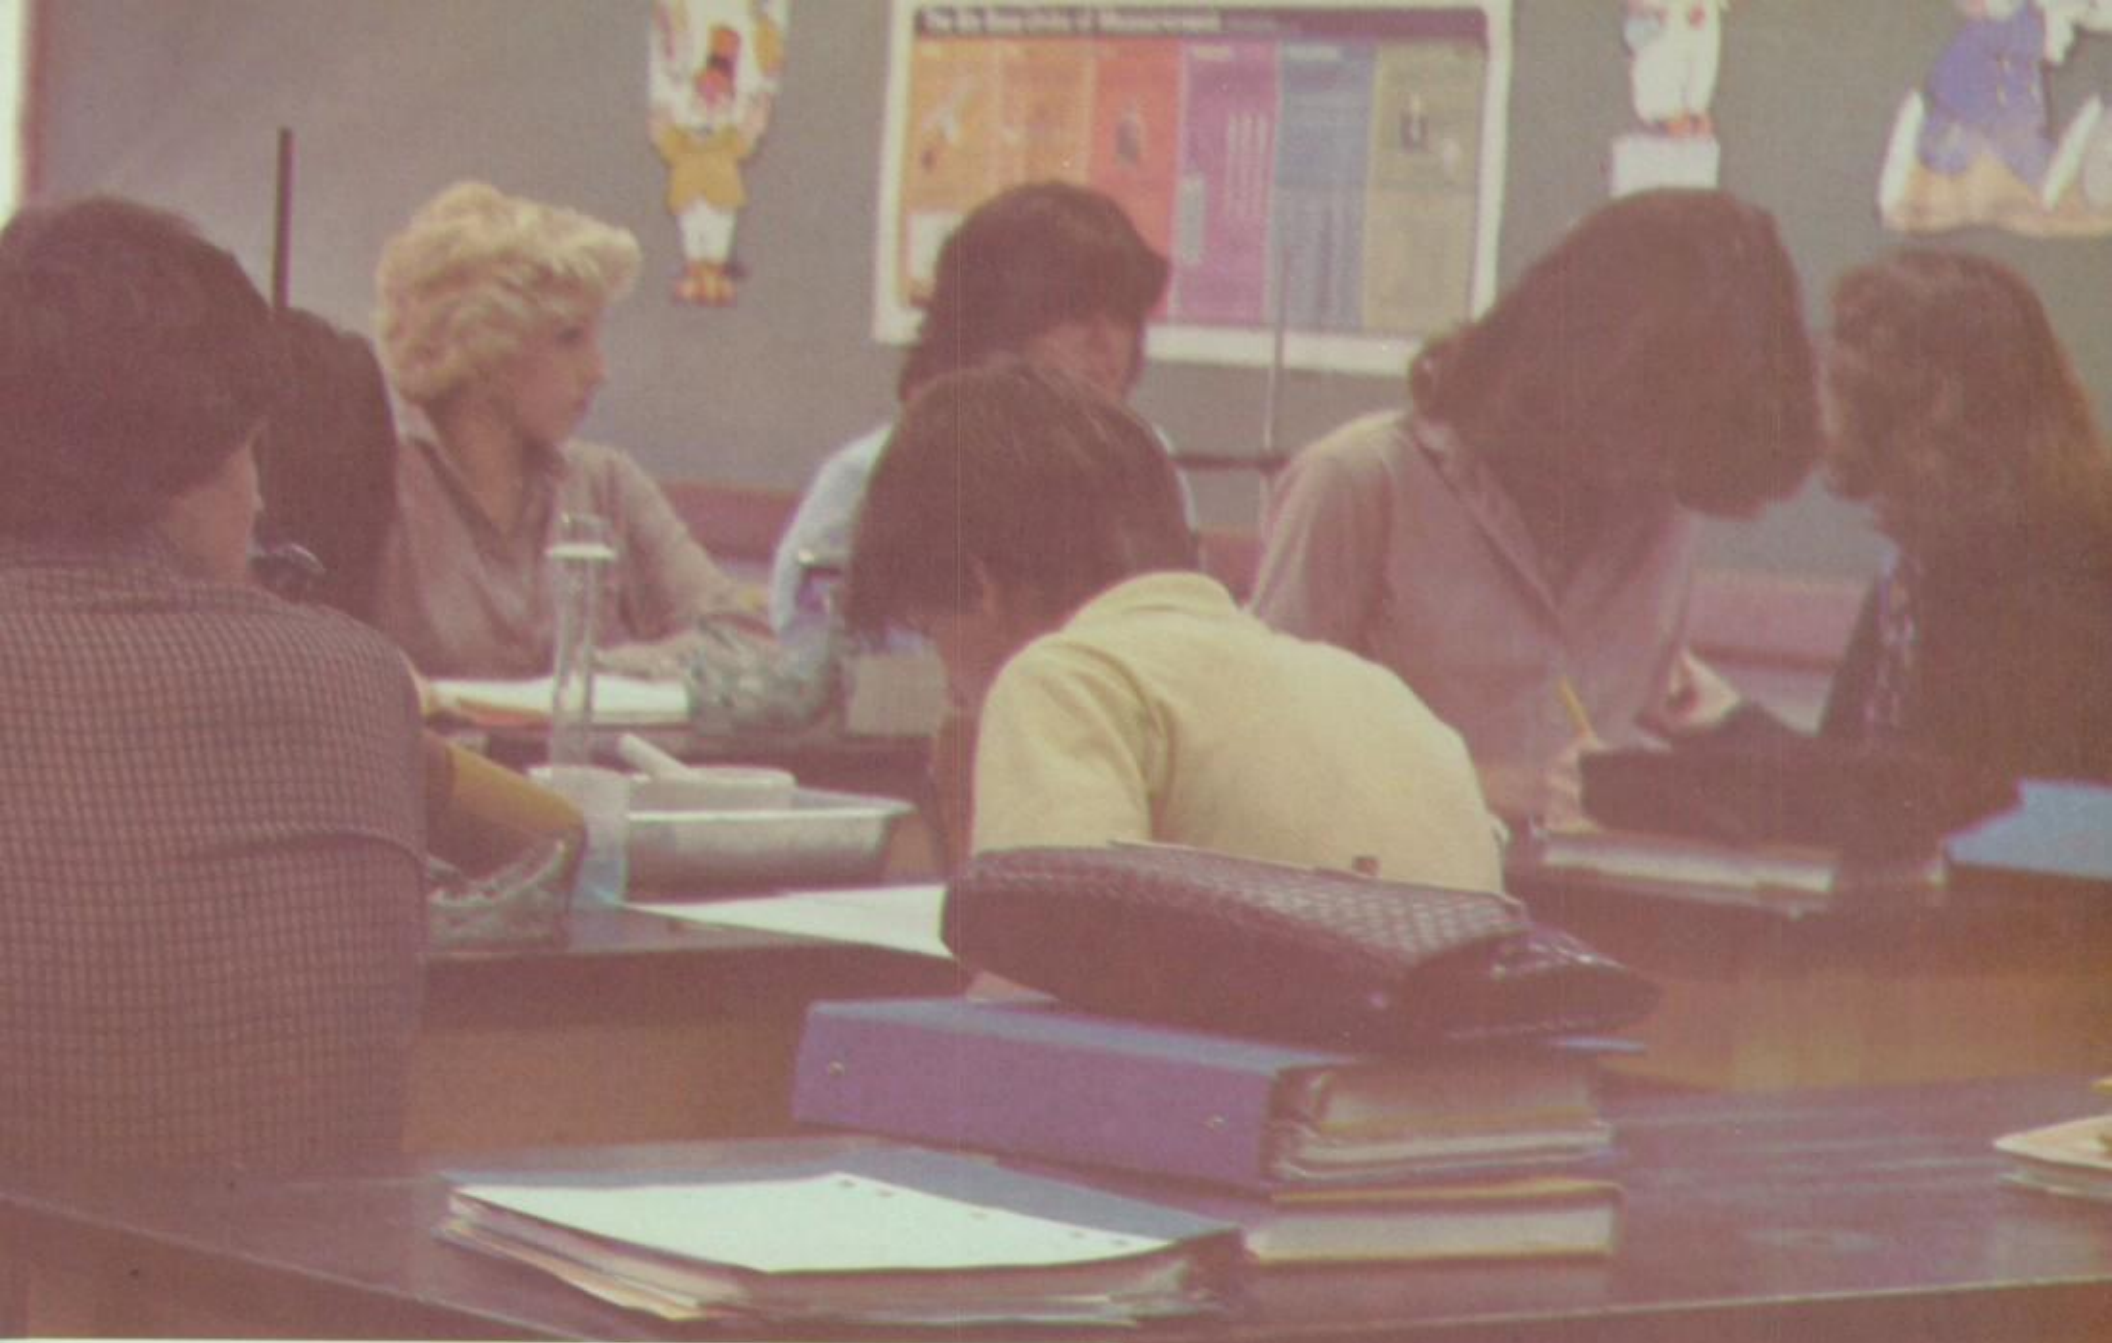

*through growth*

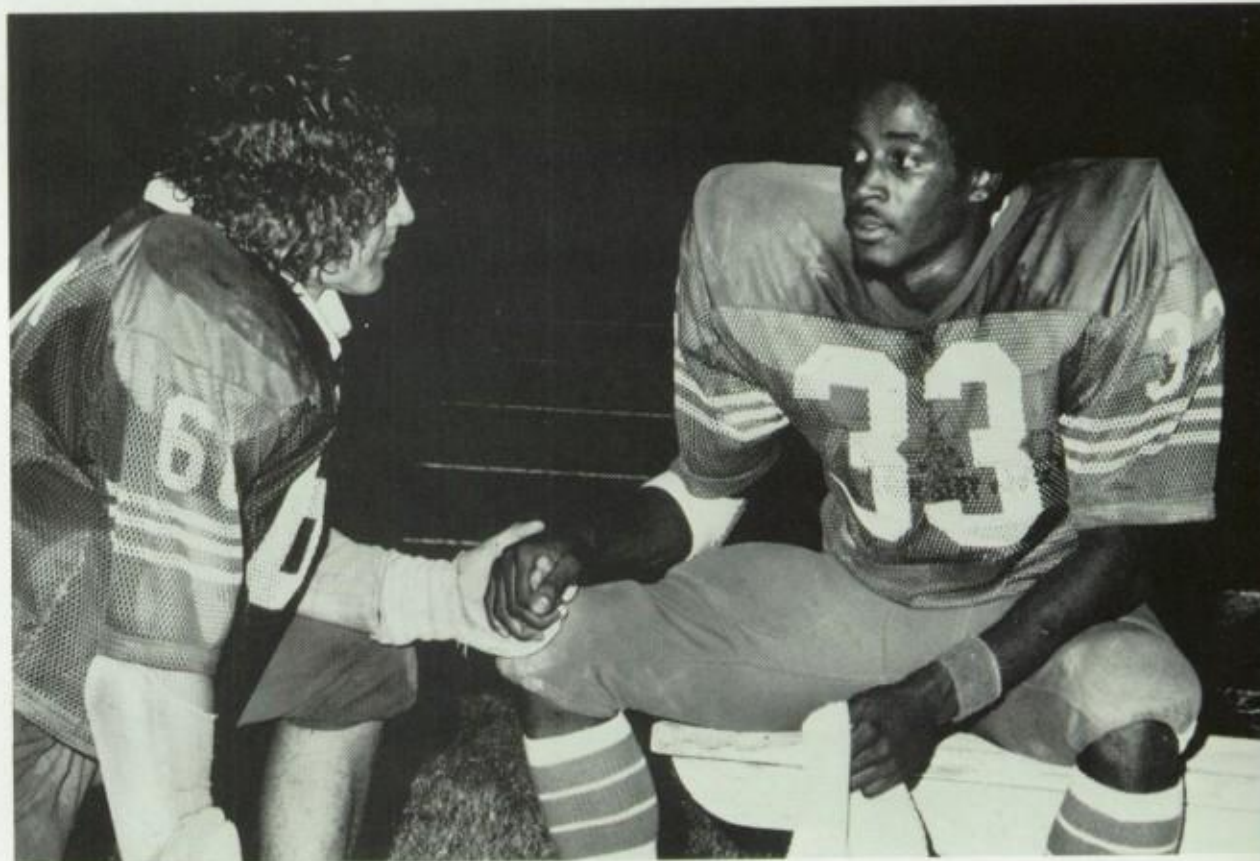

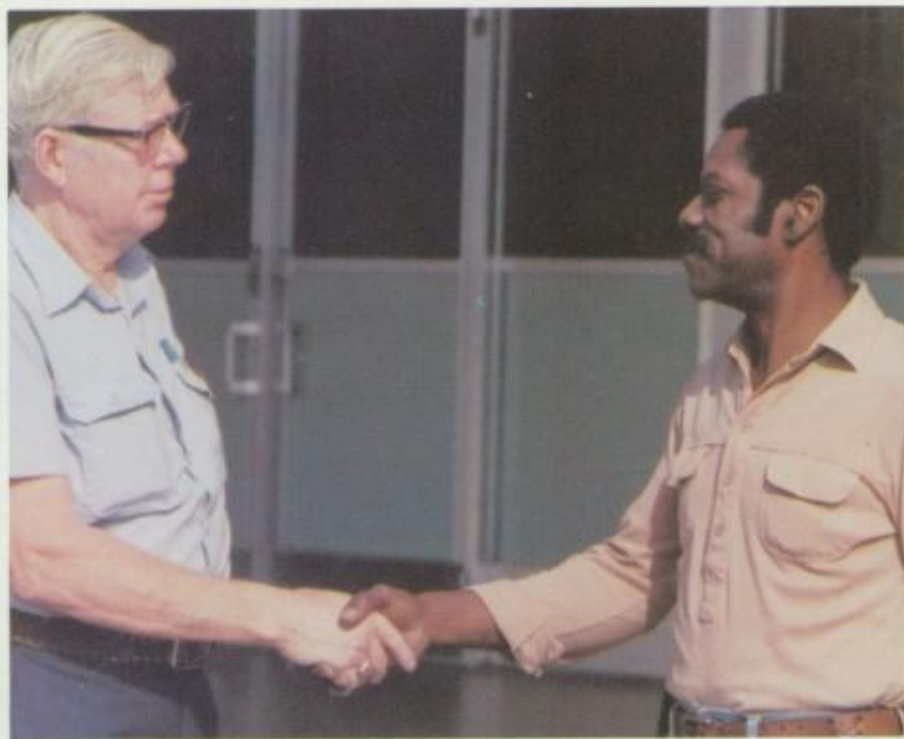

*through  
fellowship*

*through accomplishments*

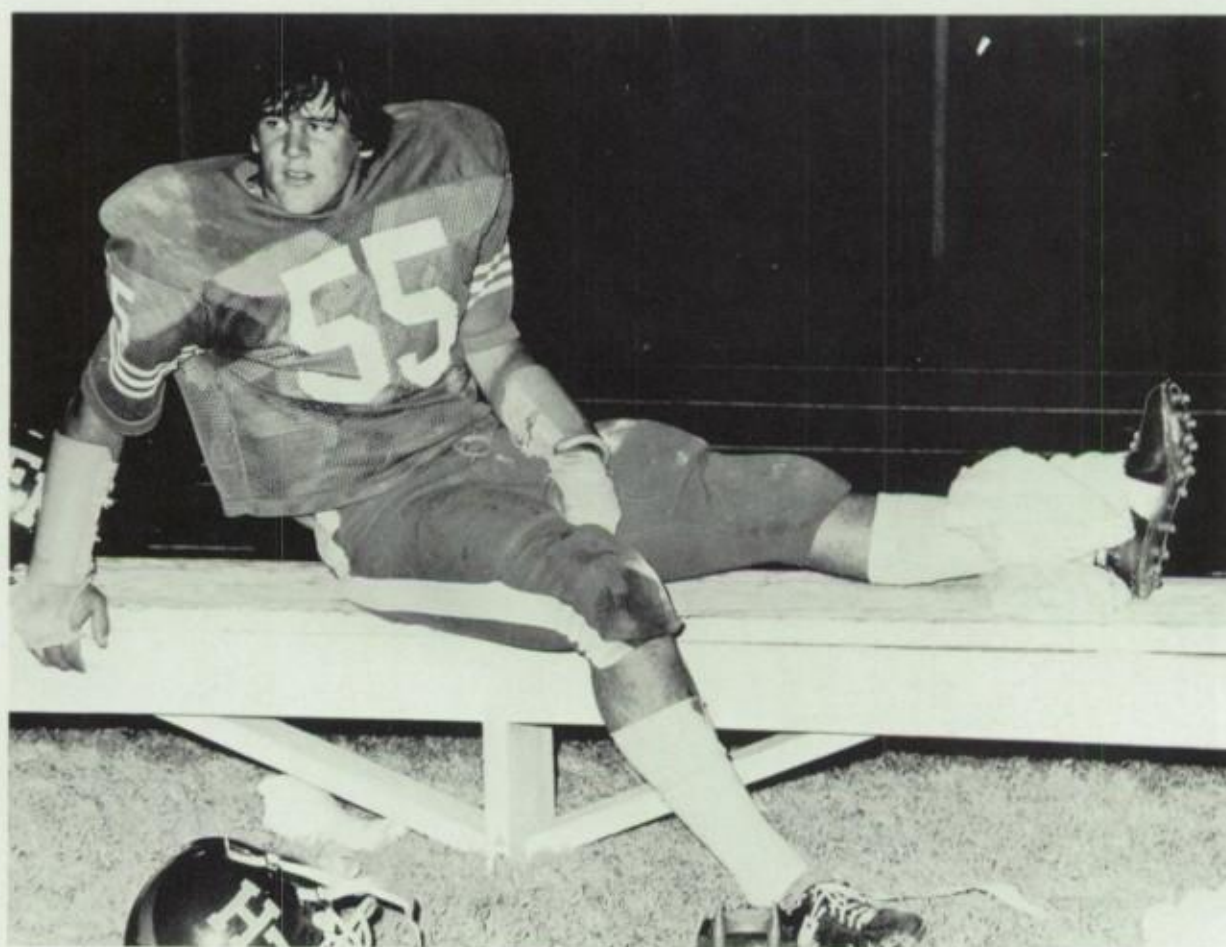

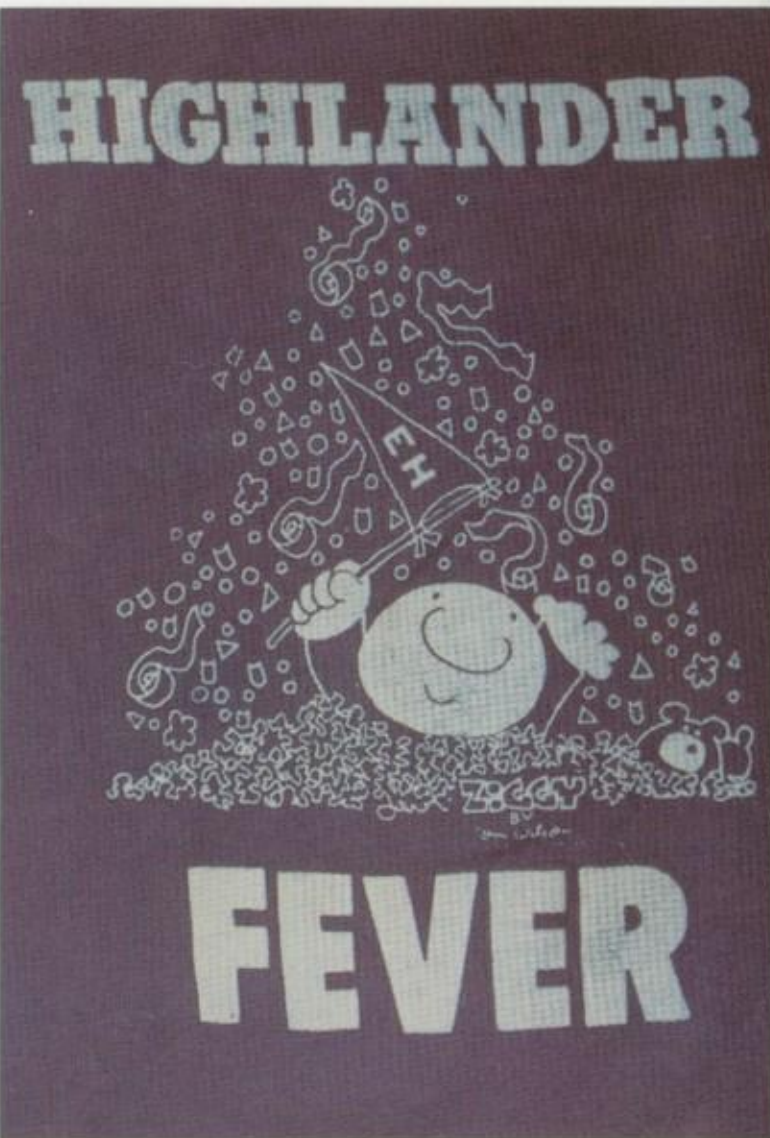

*through disappointments*

*nd through the daily routine.*

To the Staff:

Changes were made this year in many of our lives. One big change was the format of this yearbook. Thanks to the staff who worked so hard to make this yearbook deserving of its first place "Best Theme Development" award. We would like to thank the section editors and Pooh for making our job much easier. Now that the results of all the hard work are in your hands, we hope that you are as proud of the accomplishment as we are.

Love,  
 Gayle and Shawn
